21 Mount Parnassus Drive
East Haddam, CT

BUILDING SIZE:
35,950 square feet

YEAR BUILT:
1996

TOTAL PROJECT COST:
$499,882

INCENTIVE:
ZREC (Zero-emissions Renewable Energy Credit)

C-PACE FINANCING: $499,882
ENERGY UPGRADE: 160 kW roof mounted solar photovoltaic system
TERM: 10 years
ANNUAL C-PACE ASSESSMENT: $62,756
ANNUAL ENERGY COST SAVINGS:* $68,621
LIFETIME ENERGY COST SAVINGS: $1,215,212
ANNUAL ENERGY SAVINGS: 498 MMBtu

Julia and Joanna are PACEsetters. Solar energy was always a goal of theirs, but they worried it might never be affordable. Then they discovered C-PACE. The program made going solar easy, even without a technology or financing background. The process was simple and Julia and Joanna loved working with the Green Bank. Now they’re proving that not only is solar affordable, but that businesses with solar come out ahead. That’s how PACEsetters, like Julia and Joanna, are sparking the green energy movement. Is the spark in you?

Be a PACEsetter. Get started at C-PACE.com
